Letter from the CEO

Dear Tepeyac Community Health Center supporters,

With the unprecedented challenges brought on by the COVID-19 pandemic, Tepeyac Community Health Center remains rooted in our belief that access to affordable healthcare is a human right and a community safeguard. We continue to provide culturally responsive care to all persons, regardless of ethnicity, insurance status, or ability to pay. Throughout the pandemic, our providers, staff, and volunteers rose to the occasion time and time again to ensure that our patients' needs were met and that they continued to benefit from our integrated model of care.

In early March of 2020, we shifted to provide telehealth services to protect the health of our staff and patients, and to minimize the spread of the virus. This included, for the first time, offering telehealth visits via video chat or phone for medical and behavioral health care.

Despite these challenges, in 2020 Tepeyac maintained its focus on growth and innovation as indicated by the following achievements:

- Broke ground on our new clinical facility in the Elyria-Swansea neighborhood that will help Tepeyac achieve a projected tripling of annual patient visits to 52,300 by 2028. The new clinic will feature a pharmacy, 20 medical exam rooms, six dental operatories, two procedure rooms, six counseling and therapy rooms, dedicated space for art and play therapy, a group therapy room, and a large community activity space.
- Recognized by the Centers for Disease Control and Prevention (CDC) as a Million Hearts Hypertension Control Champion for our success in helping patients control hypertension.
- Recognized by the Health Resources and Services Administration (HRSA) as a Health Center Quality Leader for overall clinical performance in the top 20% of all health centers nationwide. HRSA also recognized Tepeyac as a Clinical Quality Improver, as a Patient Centered Medical Home (PCMH), and as a center Advancing Health Information Technology (HIT) for Quality.
- Implemented a Food Prescription pilot program whereby we provide food vouchers to patients experiencing economic instability and food insecurity.

On behalf of all the patients we serve, we express our heartfelt gratitude to our steadfast friends and supporters, including the many foundations, government agencies and community partners who stood by us over this past year and lifted us up when we needed it the most!

Muchísimas Gracias.

JIM GARCIA

Chief Executive Officer

HISTORY

Shifting from Clinica Tepeyac to Tepeyac Community Health Center was more than just a name change. While Clinica Tepeyac reminds us where it all began, Tepeyac Community Health Center represents how far we have come and the exciting changes with a whole new building, new programs, new services and more tools available to our patients and the community.

To learn more about the beginning of Clinica Tepeyac, please watch the video below:

MISSION • VISION • VALUES

Mission

Inspire health, wellbeing, and humanity in our community, through all of life's stages.

Vision

We envision a healthy community with access to regular and ongoing health care. As we expand our reach and bring cultural competency into the community, we strive for exceptional, trustworthy care that empowers our patients, decreases routine visits to emergency rooms, and creates healthier families overall.

Values

Dignity

Tepeyac Community Health Center respects the inherent dignity of each person. We are sensitive, inclusive, and empowering in our relationships with others.

Integrity

Tepeyac Community Health Center values authenticity and consistency. We are genuine, reliable, and dependable providers.

Quality

Tepeyac Community Health Center values excellence. We consistently provide the best care possible.

SERVICES WE PROVIDE

Tepeyac patients have access to a number of high-quality, evidence-based programs to support their health and wellness, including:

- Children's Health
- Pregnancy & Women's Health
- Men's Health
- Dental Care
- Preventative care: annual adult and pediatric exams including bone density screening; immunizations; mammograms through the St. Joseph Hospital Mammography Van, STI (sexually transmitted infections), and pregnancy testing
- Managed diabetes care including: a health coach, discounted medication, diabetes management classes, exercise & healthy cooking classes, and patient navigation
- Personal health coaching: Individualized health plans and ongoing support to promote patient activation (i.e., the skills, knowledge and confidence patients need to manage their health)
- HIV/AIDS managed care
- Referrals for specialty care at reduced costs
- Screening and enrollment for Medicaid, including presumptive eligibility, and CHP+ enrollment

All paid clinic providers and staff who deliver services directly to patients are bilingual.

"Tepeyac is not just a health clinic. They give you courses and advice according to your condition. It is important for people to know that they won't only get treated for their condition here, but that they will also receive complete and comprehensive services in other areas as needed."

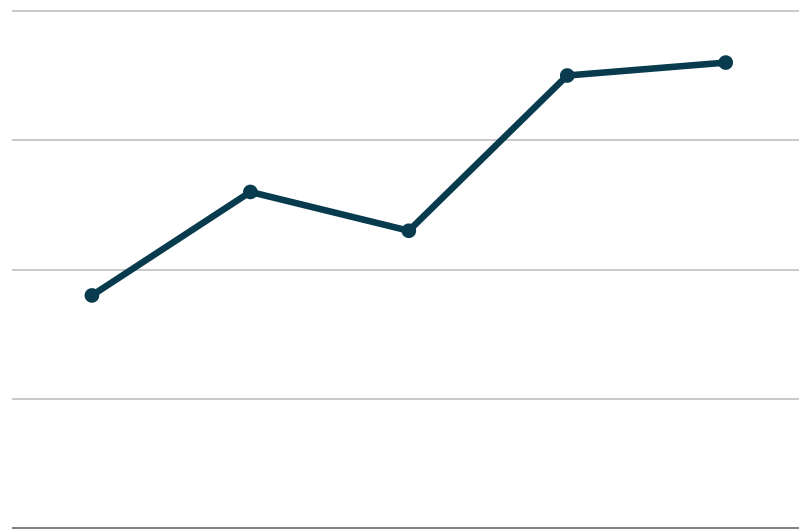

Edubijes A. - Tepeyac patient

WHO WE SERVE

BY THE NUMBERS

Patients by Age

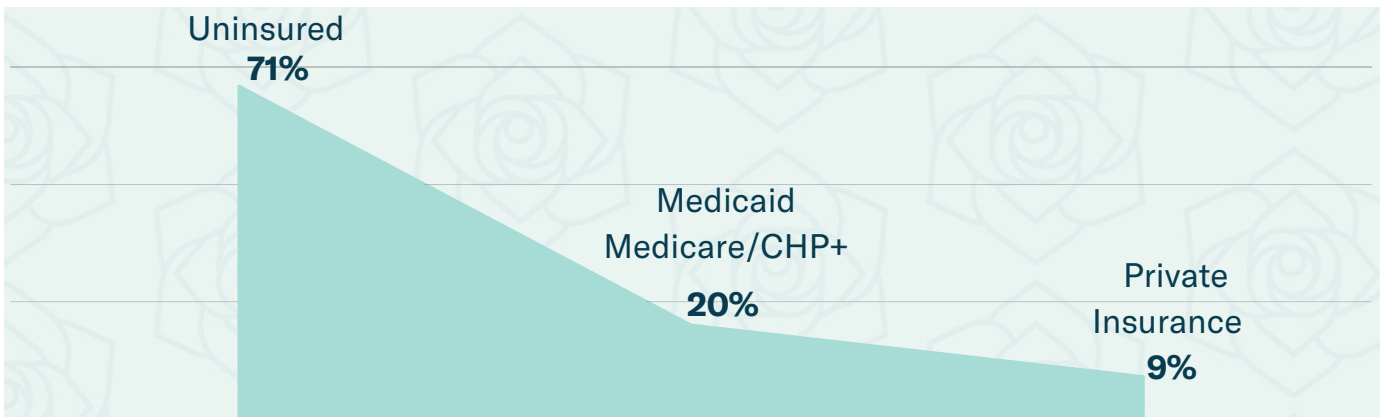

“I have been a Tepeyac patient for 16 years. I have received all the support that I needed, from family doctors to psychological therapy throughout all these years.”

TEPEYAC 20

*2020 became the year of the Virtual Event! We were
Tortillas for Tepeyac*

Tortillas for Tepeyac

Tortillas for Tepeyac changed quickly from an in-person event to a virtual event as the world shut down in early 2020. Luckily, we were able to pivot to an online event in a matter of weeks. Our Celebrity Rollers competed from the comfort of their own kitchens and Tepeyac was able to reach more people through our social media channels.

20 EVENTS

*we were fortunate enough to be able to produce two events,
and the Adelante 5k!*

Adelante 5K

The ¡Adelante! 5K Run/Walk, Community Expo also went virtual in 2020. The goal being to increase healthy living behaviors for families and increase opportunities for active living in Denver and surrounding areas. We virtually hosted individuals, family teams and corporate teams all participating in support of Tepeyac and the patients we serve!

“I got involved with Tepeyac because as an educator I saw what happened to children and families who didn’t have adequate health care. From early on, Tepeyac has been meeting the needs of Latino families.”
